

ORGANIZATION ALIGNMENT

Saturday, Oct. 27 - Sunday, Oct. 28 (see times below)

Home Alignment and Body Alignment Technique Module 4 are the pre-requisites.

This is a 2 day course that teaches how to create a harmonious environment to support the management of the organization to fulfill its mission statement and accomplish its goals. In the Home Alignment course we use the blueprint of the home to determine where blockages may be in the flow of energy in order for them to be released. In Organization Alignment we utilize the organization chart of the business including external elements such as suppliers, customers, contract services such as marketing or financial services in order to determine where energy may need to be balanced in the flow between departments or external elements.

You will learn:

- How to check the organization's mission statement for its congruence with current market factors so that it can be adjusted if necessary.
- How to work with the internal components of the organization, i.e. all elements that are governed and controlled by the project as brought to focus by its organization chart.
- How to work with the external elements that have some relationship, at some level, with the business.
- How to check what needs to be manifested in order to move the organization closer to its goals.
- How to support the management team in releasing blockages in order to support the business in reaching its goals.
- How to establish an action plan to help the management team move the business forward.

WORKSHOP DATES: Saturday, Oct. 27 (9:00—5:00) - Sunday, Oct. 28 (9:00 - 3:00)
